

Ask Yourself: Is this the right meeting for Copilot?

BRING COPILOT WHEN

The meeting has decisions, action items, or a lot of moving parts. Project planning, cross-team syncs, vendor calls.

LEAVE IT OUT WHEN

It is a quick check-in with nothing to capture, or a confidential conversation about HR, legal, or personnel matters.

 STEP 01: BEFORE
PURPOSE

Walk in prepared in 30 seconds.

DO THIS

Turn on transcription, let attendees know, and ask Copilot to catch you up before you join.

PRO TIP PROMPT

Summarize my recent emails and chats with the supply chain team before our 2:00 PM CT sync.

 STEP 02: DURING
PURPOSE

Stay in the conversation while Copilot takes the notes.

BEST FOR

Capturing decisions and action items in real time, and catching up if you join late.

PRO TIP PROMPT

What decisions have been made?

List the action items and who owns each.

 STEP 03: AFTER
PURPOSE

Turn an hour of follow-up into two minutes.

BEST FOR

Summaries, action item lists, and follow-up emails. Open the meeting recap in Teams, then ask.

PRO TIP PROMPT

Summarize this meeting in five bullet points.

Draft a follow-up email to all attendees.

THE TOP 3 RULES:

1. **You are the editor.** Review every Copilot output before you act on it or send it. Copilot drafts, you decide.
2. **Transcription on, attendees informed.** Every meeting, every time.
3. **Confidential stays confidential.** No HR, legal, or personnel discussions with Copilot in the room. When in doubt, leave it out.
